The KarangaIO Healing Haka®

Is a call to the essential. It describes the welcoming of the New Era that follows the great celestial alignment and has an impact on all our earthly existence.

KARANGA means the call that weaves everything together.

IO is the divine entity

AIO means peace, tranquility, harmony

This Healing Haka® is a danced prayer. It tells of the radiant centre of our galaxy radiating its blessings to all its billions of stars held together by its gravitational pull. It tells of the great blessing spreading to our solar system, our world, the earth and all manifestation, encouraging humanity to move closer to the great vision of the universe.

KarangaIO is the call to the essential being, to the one who is even beyond the highest heaven, "IO Tiketike", who is the most significant and at the same time has the capacity to be our dearest friend.

"E hoa, e koa haere mai, haere mai".

With this danced prayer we welcome the new time, this new beginning that is happening right now in this time, and recognise that we are of divine nature.

Do you also feel this call? Would you like to follow it and dance it with us?
